SUBJECT: Proposed Shepherd 46kV Line Relocation
Reference No: Coe Township, Isabella County GWO 1574

REFERENCE: Amended and Restated Easement Agreement (the "Agreement") dated April 29, 2002, between Consumers Energy Company ("Consumers") and Michigan Electric Transmission Company, now Michigan Electric Transmission Company, LLC ("METC")

Pursuant to Section 7.1 of the Agreement, Consumers hereby notifies METC that Consumers intends to install a mid span structure between ITC structures #156 & #157 in line 6AF. The new structure will be located approximately fifty-five feet south of structure #157. Attached is a survey drawing detailing the plans for this project and the email correspondence between METC and CE for this project.

Under said Section 7.1 of the Agreement, METC must within 30 days of this notice notify Consumers, as "Initiating User," of whether or not METC approves the proposed use as a Compatible Use. If you do not notify us either way within 30 days of this notice, then, as provided in said Section 7.1, METC will be deemed to have approved the proposed use as being a Compatible Use. We would appreciate, however, receiving METC's express approval of the proposed use as being a Compatible Use as soon as possible so that we can start work without delay.

This letter is being sent to you in duplicate. If METC agrees that the proposed use is a Compatible Use, please indicate that by signing and returning a copy of this letter to us as soon as possible, so that we can immediately proceed with construction. The other copy is for your records.

If METC believes the proposed use is not a Compatible Use, please provide an explanation with your response to help aid in the resolution that would follow.

Sincerely,

Justin Lancaster

Subject: CE line relocation involving ITC facilities

Dave,

A property owner in Shepherd has requested CE relocate a 46kV line for a facilities expansion. The line is 33H and the relocation starts with the current double circuit structure #156. I have included a drawing for our plans for this relocation below. In order to relocate as requested CE will need to remove it's current attachment from structure #156 and then install a new single dead end structure between #156 and #157. Please review the attached plans and let me know if you have any questions or concerns. Our current schedule has construction starting on September 17th. I apologize for the short notice but we are trying to meet the dates requested by the customer.

Thank You,
