Michigan Electric Transmission Company, LLC
C/O NSI Consulting & Development, Inc.
26657 Woodward Ave., Suite 100
Huntington Woods, MI 48070

Attention: Executive Vice President and Chief Operating Officer

SUBJECT: Proposed Single Phase, 4800 Volt Distribution line

Reference No: 06646956/Chippewa/Isabella/Klender

REFERENCE: Amended and Restated Easement Agreement (the "Agreement") dated April 29, 2002, between Consumers Energy Company ("Consumers") and Michigan Electric Transmission Company, now Michigan Electric Transmission Company, LLC ("METC")

Pursuant to Section 7.1 of the Agreement, Consumers hereby notifies METC that Consumers intends to construct a distribution line across certain land in which METC has an interest under the Agreement. The location of the land on which said line will be constructed, and a further description of the intended use, are set forth on "Annex A", attached to this letter.

Under said Section 7.1 of the Agreement, METC must within 30 days of this notice notify Consumers, as "Initiating User," of whether or not METC approves the proposed use as a Compatible Use. If you do not notify us either way within 30 days of this notice, then, as provided in said Section 7.1, METC will be deemed to have approved the proposed use as being a Compatible Use. We would appreciate, however, receiving METC's express approval of the proposed use as being a Compatible Use as soon as possible so that we can start work without delay.

February 12, 2007

Page Two

Reference No: 06646956/Chippewa/Isabella/Klender

This letter is being sent to you in duplicate. If METC agrees that the proposed use is a Compatible Use, please indicate that by signing and returning a copy of this letter to us as soon as possible, so that we can immediately proceed with construction. The other copy is for your records.

Very truly yours,

Stacie Lahr
Consumers Energy
One Energy Plaza
Jackson, MI 49201

APPROVED:

MICHIGAN ELECTRIC TRANSMISSION
COMPANY, LLC

By: 

Date: APPROVED MAR 20 2007

ANNEX A

Reference No: 06646956/Chippewa/Isabella/Klender

LAND TO BE IMPACTED:

Land located in the Township of Chippewa, County of Isabella, State of Michigan, described as follows:

The Northeast 1/4 of Section 27, Township 14 North Range 3 West.

PROPOSED USE:

Building a new distribution line that crosses under a 138kV transmission line to service a new home. The distribution line will be crossing 25 feet East of pole #276 and will be 33 feet above ground. See attached 391 form, sketch, and plan and profile drawings.

Attention: Fernando Guevara
39500 Orchard Hill Place, Suite 200
Novi, MI 48375

SUBJECT: Proposed Installation or Modifications of Additional Antennas to Existing Telecom Lease Site
Alltel Communications / Tower 970 / Section 7, City of Portage, Kalamazoo County

REFERENCE: Preliminary Review and Approval / Amended and Restated Easement Agreement (the "Agreement") dated April 29, 2002, between Consumers Energy Company ("Consumers") and Michigan Electric Transmission Company, now Michigan Electric Transmission Company, LLC ("METC")

Please find enclosed a copy of a completed "Application To Modify Existing Co-Location Site" from Alltel Communications. Alltel Communications currently has 3 antennas on this tower and are requesting to remove three and install six.

Enclosed you will find a copy of the previous structural analysis and loading information utilized in the analysis for the original installation.

We are asking that you review the attached information and respond as to the following:

Consumers may rely on existing drawings as the tower structure has not been modified.

OR

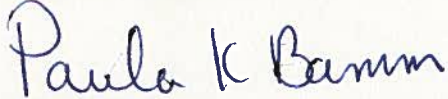

Enclosed are revised tower drawings.

We have reviewed the loading criteria provided, examined our planned future uses and have no objections to the proposed use, subject to the completion of a favorable structural analysis.

This request is being forwarded to you in duplicate. If METC has no objections, please sign, date and return this letter to us as soon as possible. The second copy may be retained by METC for its records.

Subject: Proposed Installation or Modification of additional Antennas to Existing Telecom Lease Site 970
Alltel Communications/Tower 907/Section 7, City of Portage, Kalamazoo County, Michigan.

The attached request was received from Consumers Energy. Alltel Communications intends to install and modify an existing telecom lease site. Alltel Communications currently has three antennas on this tower and are requesting *to remove three and install six*. Furthermore, pursuant to the Amended and Restated Easement Agreement, METC/ITC needs to submit a response letter to CE by *October 15, 2007*.

Please review and return to my attention with your recommendations/comments.

WOODLAND

THE ANTENNA SPECIFICATION/CUT SHEETS INDICATING THE ANTENNA'S MECHANICAL AND ELECTRICAL SPECIFICATIONS MUST BE ATTACHED TO THIS APPLICATION.

WORK DESCRIPTION	
Brief description of deliverable: (Please be certain to provide enough detail to clearly describe what equipment will be installed on both the tower and the ground AFTER the modification has been completed).	REMOVING 3 EXISTING ANTENNAS AND ADDING 6 ANTENNAS USING SAME COAT.

* Provided by Consumers Energy

DATE SUBMITTED: 3/30/07	PROPOSED BUILD MONTH: ASAP
-------------------------	----------------------------

APPLICATION/ADMINISTRATIVE FEE:

An application and/or administrative fee is required to process this application, depending on the terms of the applicant's general lease agreement with Consumers Energy. The Application Fee is \$500.00, and the Administrative Fee (if required) is \$500.00.

INSTRUCTIONS:

1. Read entire application and sign the application.
2. Return the following items to the address below: - Please do not send VIA Email
 - One (1) signed copy of this application,
 - Antenna specification/cut sheets,
 - Proposed site map (if exact address is unavailable), and
 - \$500 Administrative and/or \$500 Application Fee (make check(s) payable to Consumers Energy Company).
 - Send to:
 Paula K Bamm
 Consumers Energy Company
 Telecom Leasing Project
 One Energy Plaza
 Jackson, MI 49201-2276

GENERAL INFORMATION:

- An engineering and operating review of your request MUST be made. Questions regarding progress may be directed to the Telecom Leasing Project (Paula Bamm 517-788-1752).
- If proposed site is a transmission tower co-location, seven copies of the site plans and construction drawings will need to be submitted when available.
 - If proposed site is a communications tower co-location, three copies of the site plans and construction drawings will need to be submitted when available.
 - All other proposed co-location or raw land installations require seven copies of the site plans and construction drawings be submitted when available.

Applicant understands that it is not obtaining an option, right of first refusal, or any other interest in the property in question by virtue of this application or the enclosed payment. Applicant also understands that Consumers Energy Company may (1) Not be able to lease the property; (2) Refuse to lease the property; and/or (3) Lease the property subject to any conditions, restriction or reservations it deems necessary or desirable.

Applicant acknowledges reading this application and understands that the \$500.00 Administrative Fee is non-refundable. The \$500 Application Fee will be refunded ONLY if Consumers Energy Company is unable to rent the requested space due to factors within Consumers Energy Company's control.

 Tenant Fax: (616) 285-7396

First Year-Initial Term:	January 20, 2000 - January 19, 2001	First Year-Initial Term Rent:	\$15,000/year
Second Year-Initial Term:	January 20, 2001 - January 19, 2002	Second Year-Initial Term Rent:	\$15,600/year
Third Year-Initial Term:	January 20, 2002 - January 19, 2003	Third Year-Initial Term Rent:	\$16,224/year
Fourth Year-Initial Term:	January 20, 2003 - January 19, 2004	Fourth Year-Initial Term Rent:	\$16,873/year
Fifth Year-Initial Term:	January 20, 2004 - January 19, 2005	Fifth Year-Initial Term Rent:	\$17,548/year

Intended Site Use: Install antennas on tower and install equipment shelter or cabinets near tower.

Electric Energy charge of \$100.00 per month if metering is not obtained by tenant.

Tenant is authorized to install and maintain the following antenna and systems equipment:

<u>Antenna</u>	<u>Brand/Model</u>	<u>Mount Height</u>	<u>Azimuth</u>	<u>Mounting Leg</u>	<u>Line</u>	<u>Operating Transmission Frequencies</u>
3	RR90-17-00DP	114 feet	0-120-240		1/5/8"	<u>Transmit/Receive</u> Tx 1945-1950 MHZ Rx 1865-1870 MHZ

The above-mentioned antennas may be replaced with the below mentioned antennas at a future date, provided that a new structural analysis is performed and the results are favorable.

Installed Equipment Description:
Rack Qty. Manufacturer Description Model
 See Site Plan for approved tower and ground details.

RR70-12-XXXA2

DualPol® Polarization
806 MHz - 896 MHz

OptiRange™

Electrical Specifications

Azimuth Beamwidth	70°
Elevation Beamwidth	15°
Gain	11.2 dBd (13.1 dBi)
Polarization	Dual Linear, Slant ($\pm 45^\circ$)
Port-to-Port Isolation	≥ 20 dB
Front-to-Back Ratio	≥ 26 dB
Electrical Downtilt Options	0°, 5°
VSWR	1.35:1 Max
Connectors	2; Type N or 7-16 DIN (female)
Power Handling	500 Watts CW
Passive Intermodulation	≤ -150 dBc [2 x 20W (+ 43 dBm)]
Lightning Protection	Chassis Ground

Mechanical Specifications

Dimensions (L x W x D)	48 in x 12 in x 7 in (121.9 cm x 30.5 cm x 17.8 cm)
Rated Wind Velocity	130 mph (209 kph)
Equivalent Flat Plate Area	4 ft ² (.37 m ²)
Front Wind Load @ 100 mph (161 kph)	118 lbs (525 N)
Side Wind Load @ 100 mph (161 kph)	69 lbs (308 N)
Weight (Without Mounting Kit)	18 lbs (8 kg)

Mounting Options

MTG-P00-10, MTG-S02-10, MTG-DXX-20°, MTG-CXX-10°, MTG-C02-10, MTG-TXX-10°

Note: *Model number shown represents a series of products. See Mounting Options section for specific model number.

Patterns

EMS' antennas are protected by one or more of the following U.S. patents: 5,844,529; 6,067,053; 6,462,710; 6,392,600; 6,069,590; 5,966,102; 5,757,246. EMS' antenna designs may also be covered by pending U.S. patent applications and by pending & awarded international patents.

Revised 04/20/04

Vertically Polarized, Panel 62° / 16 dBd

RWA-80017LS __ 5° 25%

When ordering, replace " __ " with connector type.

Mechanical specifications

Length	2450 mm	98.5 in
Width	285 mm	11.2 in
Depth	160 mm	6.3 in
¹⁾ Weight	14 kg	31.0 lbs
Wind Area	0.698 m ²	7.51 ft ²
Wind load at 50 m/s	1140 N	256 lbs

Antenna consisting of aluminum alloy with brass feedlines covered by a UV safe fiberglass radome

Mounting & Downtilting:

Mounting brackets attach to a pipe diameter of Ø50-160 mm (2.0-6.3 in)

Mounting bracket kit #36210002

Downtilt bracket kit #36114003

Electrical specifications

Frequency Range	806-941 MHz*
Impedance	50Ω
²⁾ Connector	NE, E-DIN
¹⁾ VSWR	≤1.4:1
Polarization	Vertical
¹⁾ Gain	16 dBd
²⁾ Power Rating	500 W
¹⁾ Half Power Angle	
H-Plane	62°
E-Plane	7°
¹⁾ Electrical Downtilt	5°
¹⁾ Null Fill	25%
Lightning Protection	Direct Ground

*Also available up to 960 MHz. Consult your sales director for more information.

²⁾Typical Values

²⁾Power Rating limited by connector only.

²⁾NE indicates an elongated N Connector.

²⁾E-DIN indicates an elongated DIN Connector.

²⁾The antenna weight listed above does not include the bracket weight.

Improvements to mechanical and/or electrical performance of the antenna may be made without notice.

Radiation-pattern¹⁾

Horizontal

Vertical

Specially designed for enhanced upper side lobe suppression.

Radiation patterns for all antennas are measured with the antenna mounted on a fiberglass pole.

Mounting on a metal pole will typically improve the Front-to-Back Ratio.

Amphenol Antel's Exclusive 3T (True Transmission Line Technology) Antenna Design:

- A 1½" four-channel extrusion running the entire length of the antenna for unmatched strength and rigidity.
- Durable brass feedline design that eliminates the need for conventional solder joints in the signal path.
- A non-collinear system with access to every radiating element for broad band width and superior performance.
- Air as insulation for virtually no internal signal loss.

Every Amphenol Antel antenna is under a five-year limited warranty for repair or replacement.

Antenna available with bottom-fed connector only.

806-941 MHz

Amphenol Antel, Inc.
