This instrument also includes a temporary construction easement, 18 feet  
wide south of the permanent easement, and a 10 foot wide strip westerly and  
adjacent to the permanent easement. Also a temporary construction easement  
40.00 feet wide easterly of the permanent easement and adjacent to the east  
property line of Meadowbrook Road, as depicted on Exhibit "A".

This instrument also grants unto the City of Novi and/or its agents the  
right to move men and equipment on and through, and the right to store  
material and excavated dirt, and the right to alter the underlying land  
within the temporary easement lying adjacent to the permanent easement. Said  
temporary construction easement shall terminate upon completion of the Hudson  
Sanitary Sewer District, Project No. N-2957-1.

1. PURPOSE - Edison grants this easement to Grantee to construct, operate,  
remove and maintain a sanitary sewer, a lift station, a generator building and  
a paved access drive ("Grantee's Facility") in accordance with the plans and  
specifications identified as Job No. N-2957, on file in the office of JCK &  
Associates, Inc., 45650 Grand River Avenue, Novi, Michigan 48374, Consulting  
Engineers for the City of Novi.

2. ACCESS - Grantee has the right to enter and exit the Easement Area at  
all reasonable times.

O.K. — LMP

3. EDISON'S RIGHTS - Edison specifically reserves the right to construct,  
operate and maintain overhead and underground electric transmission,

2.00 RMT

distribution and communication lines and associated structures and equipment ("Edison Facilities") on, over and under the Easement Area as long as Edison's Facilities do not interfere with Grantee's Facility.

4. **ENCUMBRANCES** - This easement is granted without any warranties or covenants of title, and subject to all now existing easements, restrictions and encumbrances affecting the Easement Area to which this easement would be subordinate under the recording acts or other applicable law of the State of Michigan. Furthermore, Edison may grant other encumbrances over the Easement Area which do not interfere with Grantee's Facility.

5. **EDISON DAMAGES** - Grantee must pay Edison for all damages, losses or injuries to Edison's Facilities caused by Grantee, its agents, employees, servants or independent contractors while constructing, maintaining or operating Grantee's Facility.

6. **INSURANCE** -

- a. Grantee and Grantee's contractors, at their own expense, must each maintain a general liability insurance policy that is satisfactory to Edison in form and substance. Grantee may, in lieu of the policy of insurance, self-insure the liabilities assumed in this agreement. The policies must cover the liability assumed in this agreement, for \$500,000 each person and \$1,000,000 each occurrence bodily injury, and \$500,000 each occurrence property damage. The policies must also include explosion damage, collapse or damage to underground property (commonly known as "XCU"). Grantee's contractor's policy must name Edison as an additional insured. Grantee's policy must remain in effect as long as this easement agreement remains in effect. Grantee's contractors' policies must remain in effect during that time that the contractors are working in the easement area.
- b. Grantee and Grantee's contractors must each give Edison's Director of Corporate Real Estate Services a Certificate of Insurance for the insurance coverage required by this agreement. The certificates must state that Edison will have ten (10) days written notice before any material change or cancellation becomes effective.
- c. Grantee waives Grantee's rights of recovery, Grantee's contractor's rights of recovery and their insurers' rights of subordination against Edison for damage to Grantee's or its contractor's property used on the Easement Area.
- d. Obtaining the insurance required by this agreement will not limit or release Grantee's indemnity liability.

7. **INDEMNITY** -

- a. Grantee will indemnify Edison (the Company, its officers, agents and employees) for any claims for injuries or damages to persons or property or both, arising directly or indirectly out of the use of this easement by Grantee (the person, company or organization, its contractors, subcontractors, lessees, licensees and any of its or their agents or employees). This includes, but is not limited to,

22-13-301-014

claims arising out of Grantee's negligence, Grantee's and Edison's joint negligence, or any other person's negligence. But Grantee will not indemnify Edison for claims arising out of Edison's sole negligence.

- b. If any claim covered by Grantee's indemnity is brought against Edison, Grantee will defend the claim at Grantee's expense. Grantee will also pay any costs, attorney fees, or judgements that Edison incurs or is subject to in the claim.

#### 8. CONSTRUCTION AND MAINTENANCE -

- a. Grantee will construct and maintain Grantee's Facility on this easement at its sole expense. If underground work is involved, Grantee must call Miss Dig (1-800-482-7171) in accordance with Michigan Public Act 53 of 1974, as amended, before beginning any ground breaking. Edison may inspect Grantee's Facilities during any construction or maintenance work.
- b. Grantee and its contractors must maintain at least a 20 foot clearance from Edison Facilities. Grantee must not mound dirt or change elevations which would decrease the clearance of Edison's existing electric lines to ground.
- c. Grantee must not change the natural drainage of the Easement Area.
- d. Grantee must not change either the elevation or the slope of the Easement Area without Edison's prior written permission.
- e. After Grantee completes construction of Grantee's Facility, Grantee must send "as-built" drawings of Grantee's Facility to the Supervising Engineer, Transmission and Civil Engineering, The Detroit Edison Company, 2000 Second Avenue, Room 704 G.O., Detroit, Michigan 48226 (telephone 313-237-8411).
- f. After Grantee completes any construction or maintenance work, Grantee must backfill any excavations with excavated material having an in-place density of at least 100 pounds per cubic foot. If excavated material is unsuitable (e.g. peat, organic material or trash), Grantee must use Michigan Department of Transportation Class II granular fill. For grassy or unpaved areas, Grantee must place backfill in 12 inch to 15 inch layers and compact each layer to 90 percent maximum density as determined by the Modified Proctor Test (ASTM D 1557). For aggregate or pavement surface, Grantee must place backfill in 9 inch maximum layers and compact each layer to 95 percent maximum density as determined by the Modified Proctor Test.
- g. After Grantee completes any construction or maintenance work, Grantee must restore Edison property, as nearly as possible, to its original condition. This includes grading and reseeding all disturbed lawn areas and replacing any damaged landscaping.

9. **ABANDONMENT** - If Grantee abandons any part of this easement, then within three months after the abandonment, Grantee must restore the abandoned part as

nearly as possible to its original condition and give Edison a written recordable document concerning this abandonment.

10. MORTGAGE - This easement is subject to an October 1, 1924, Mortgage between the Detroit Edison Company and Banker's Trust Company, a New York corporation, and all supplemental indentures to the Mortgage.

11. SUCCESSORS AND ASSIGNS - This easement runs with the land and binds and benefits Edison's and Grantee's successors and assigns.
