Dear Sir:-

Enclosed herewith you will find approved copy of your application of January 9th, for pole line construction on Franklin Road.

I regret this application has not been approved at an earlier date, but I have just received it from another department.

We propose to construct a pavement with necessary drainage, on Franklin Road from South Boulevard to City limits in the near future.

Your application of same date covering proposed pole line construction on Grand Trunk Belt Line Right of Way from South Boulevard to Perry Street has been received.

Grade separation structures will be built at all important streets on the new Belt Line Railway. For this reason the approval of your plans for the pole line will be delayed a short time.

Very truly yours,

F. C. Brownridge (signed)

Highway Engineer.
