**AGREEMENT FOR UNDERGROUND ELECTRIC DISTRIBUTION SYSTEM
FOR RESIDENTIAL SUBDIVISIONS, MOBILE HOME PARKS, CONDOMINIUMS
AND APARTMENT HOUSE COMPLEXES**

AGREEMENT, made this 23 day of August, 19 77, between The Detroit Edison Company, hereinafter called the "Company" and Trinity Land LTD with offices at 21570 Hall Road, Mt. Clemens, Michigan hereinafter called the "Developer".

WHEREAS, the Developer desires the Company to furnish a 120/240 volt secondary service to 77 lots/buildings numbered 1 through 77 in the development known as Independence Hills Subdivision No. 1 (hereinafter called the "Development") located in Township 1N, Range 9E, Section 21, Oakland County, Michigan. If not already so recorded, the plat of said Development shall be recorded by the Developer in the Office of the Register of Deeds of Oakland County, Michigan. The approximate location of said underground electric distribution system is shown on the Company's Department Order Drawing # 77A-63669 dated _____, a copy of which drawing is attached hereto and made a part hereof as Attachment A.

WHEREAS, the Company, pursuant to the applicable Orders of the Michigan Public Service Commission, is permitted to require payment from the Developer prior to constructing the underground electric distribution system.

NOW, THEREFORE, in consideration of the mutual promises as hereinafter set forth, the Company and the Developer agree as follows:

1. The Company, subject to the provisions of this Agreement, shall furnish, install, own and maintain an underground electric distribution system consisting of primary and secondary underground cables, transformers and associated equipment, and any other underground or overhead line extension facilities which are required in connection therewith, but not including service connections, to make available alternating current, 60 hertz, single phase electric service to lots/buildings in the Development. Said underground distribution system shall be designed and installed so that the Company may serve streetlighting luminaires therefrom. The character and location of all streetlighting equipment, if installed by the Company, and all equipment constituting the underground electric distribution system shall conform to specifications prepared by the Company. Streetlighting service is not covered by this Agreement and, if provided by the Company, shall be the subject of separate agreement between the Company and the governmental body requesting such service. Said underground electric distribution system shall be used for furnishing the Company's service to the Developer and to such other persons along such underground electric distribution system, or beyond the same, as may become customers of the Company; provided, however, that such underground electric distribution system shall remain a separate, distinct unit for the purposes of this Agreement and any further extension therefrom shall not be a part of nor have any effect upon this Agreement. Service connections between such underground electric distribution system and houses/buildings or other structures to be served therefrom are not covered by this Agreement and shall be the subject of separate agreements between the Company and parties requesting such service connections.

RECORDED FIRST OF WAY NO. 30960

2. Upon the execution of this Agreement, the Developer will pay to the Company \$ 27,833.00. This amount is the "Total Payment Required" as determined in the "Computation of Underground Electric Distribution Line Extension Advance and Contribution for Residential Developments," Attachment D, which is attached hereto and made part hereof. It is the Developer's share of the cost, after deducting the allowance for the investment which the Company is authorized to make under its line extension policy. Said "Total Payment" includes a nonrefundable contribution as reflected in "Computation of Underground Electric Distribution Line Extension Advance and Contribution for Residential Developments", computed in accordance with Rule B-3.3 and Rule B-3.4 of the Company's Standard Rules and Regulations as now filed with the Michigan Public Service Commission. No portion of said nonrefundable contribution shall be refunded (except as provided in Paragraphs 9 and 12 hereof) nor any interest paid thereon by the Company. A nonrefundable contribution in addition to that provided herein may be required where, in the Company's judgment, practical difficulties (not considered in determining said nonrefundable contribution) exist, such as but not limited to water conditions, rock near the surface, or where there are requirements for deviation from the Company's filed construction standards.

3. In regard to any amount identified as "Refundable Line Extension Advance" in said "Computation of Underground Electric Distribution Line Extension Advance and Contribution for Residential Developments", the Company will refund to the Developer in accordance with the "Schedule of Refunds", Attachment C, which is attached hereto and made a part hereof. No refund shall be made in excess of said refundable amount and said amount shall bear no interest. Any portion of said amount remaining unrefunded at the expiration of the fifth 12-month period commencing on the first day of the month following the first full billing period after which the service was energized, shall be retained permanently by the Company.

4. Without limiting the generality of the last sentence of Paragraph 2 hereof, if said underground electric distribution system or any portion thereof is to be installed during the period beginning December 15, and ending March 31, both inclusive, the Developer shall pay the Company, prior to installation of said system or portion thereof, an additional contribution (winter charge) of \$ 1.00 per trench foot for the portion of the said system installed during the period beginning December 15 and ending March 31, both inclusive, unless the Developer has signed this Agreement and paid the Total Payment Required, Attachment D, prior to November 1.

5. The Developer will provide to the Company, easements six feet (6') in width for the installation of the underground electric distribution system, which will be subsequently platted or provided by a separate easement instrument. Said easements shall include, but not by way of limitation, right of way for streetlighting in the Development by means of underground facilities.

6. The further maintenance of the underground electric distribution system in the proposed easements does not include repair of damage to said system caused by the Developer, its contractors, agents, employees, successors and assignees. If such damage should occur to said system, Developer will reimburse the Company for all costs arising out of any such damage.

7. Developer agrees that community antenna systems or other cable systems will not be installed in the same trench with Company and telephone cables without a separate written agreement.

RECORDED FIRST OF MAY NO. 30960

8. The Developer shall provide, at no expense to the Company, rough grading (within four inches of finished grade) so that the underground electric distribution system and the streetlighting cables, if any, can be properly installed in relation to the finished grade level. After rough grading, the Developer shall install and maintain, at no expense to the Company, permanent survey stakes indicating all property lines in the Development. Developer shall also install and maintain final grade stakes along the route of the trench and at the location of all above grade equipment. Developer agrees that the average ground elevation within six feet of any cable, conduit, wire, conductor or other underground facility will thereafter be maintained at a level not to exceed four inches above or below the finished grade level established at the time of installation of said underground facilities. Developer further agrees that changes in the ground surface elevation in excess of the limits herein prescribed may be permitted upon written consent of the Company. No later than five days prior to the start of construction that has been scheduled for _____, the Developer will deliver to the Company an executed *Certificate of Grade* certifying the completion of grading in accordance with the foregoing and Developer's payment in the amount specified as "Total Payment Required" on said Attachment D.

9. If the Company, in its sole judgment, determines that all of the customers (or their equivalent) upon which the "Company's Share of Cost" (Attachment D) is based, will not be prepared to receive electric service upon the expected date of completion of construction of the underground electric distribution system, the Company may, upon written notice of the Developer, postpone commencement of construction of said system and delay the date electric service will be available to the Developer. Construction of the underground electric distribution system will begin when the Company, in its sole judgment, determines that all of such customers will be prepared to receive electric service on or before the date of the anticipated completion of the construction of the said system. In the event of such postponement by the Company, the Developer may upon five (5) days written notice to the Company, terminate this Agreement. In the event of such termination, the Company will refund, without interest, all payments made by the Developer hereunder.

10. The Company shall not be responsible for any losses or damages incurred by the Developer arising out of the Company's inability to perform its obligations under this Agreement, where such inability arises from an event of Force Majeure. As used in this Agreement, the term Force Majeure shall include, but not be limited to, weather, labor disputes, unavailability of materials, equipment and supplies, strikes, sabotage, acts of the Developer, or any event not within the control of the Company, and which, by the exercise of reasonable diligence, the Company is unable to prevent.

11. This Agreement, all payments and refunds hereunder, and the construction and operation of the underground electric distribution system, shall be subject to such of the Company's Standard Rules and Regulations as may be applicable, including, but without limitation, Rule B-3.3, entitled "Extension of Service" and Rule B-3.4, entitled "Underground Distribution Systems". All changes in the Company's Standard Rules and Regulations occurring subsequent to the date of this Agreement, for purposes of this Agreement, shall be deemed to have occurred prior to the date hereof, shall be applicable to this Agreement and shall supersede the affected terms and provisions hereof.

12. If at any time prior to the commencement of construction of the underground electric distribution system, changes in the Company's Standard Rules and Regulations cause an increase or decrease in "Total Payment Required", Attachment D, Developer agrees to execute an Amendment to this Agreement reflecting such changes and pay all additional charges to the Company prior to the commencement of construction of the system. The Company agrees to refund any decreases to the Developer. Upon the failure of the Developer to execute such Amendment and pay to the Company the amount

RECORDED
RIGHEE
OF
MAY
NO. 30960

of such increase prior to the commencement of construction of the system, the Company may terminate this Agreement. In the event of such termination, the Company will refund, without interest, all payments made by the Developer hereunder.

13. Any assignment of this Agreement other than an assignment of the right to receive refund of the Advance pursuant to Paragraph 3 hereof, in whole or in part, by operation of law or otherwise, without the prior written consent of the Company, shall be void.

14. All notices required hereunder shall be in writing. Notices to the Company shall be sent by United States mail or delivered in person to:

THE DETROIT EDISON COMPANY
ATTENTION: DIVISION MANAGER

30400 Telegraph Road

Birmingham, Michigan, 48010

Notices to the Developer shall be sent by United States mail or delivered in person to:

ATTACHMENT C

SCHEDULE OF REFUNDS

- (1) The Company will refund to the Developer the sum of \$500.00 for each additional residential customer(s) and two times the actual annual revenue of other customers directly connected to the extension whether by secondary voltage lines or limited purpose primary voltage lines.* Refunds will not be made until the original customer or their equivalent are actually connected to the extension.
- (2) Refunds under part 1 of this Attachment C shall be made without interest for a five-year period which begins the first day of the month subsequent to the first full billing period after the date the service is energized. The Company shall have no further obligation to refund any remaining portion of the advance. Any unrefunded advance will be considered a permanent contribution in aid of construction. The total amount refunded cannot exceed the amount of the advance under any conditions.

*A limited purpose primary line is a lateral extension of not more than 250' on the customers property connected to a financed line extension and is installed to serve an individual customer or group of customers from a single transformer installation.

COMPUTATION OF NON-REFUNDABLE CONTRIBUTION

(a)	Single Home Subdivisions		
	<u>7,470</u> front lot feet x \$1.75 per front lot foot =	\$	<u>13,073.00</u>
(b)	Mobile Home Parks, Condominiums and Apartment House Complexes		
	_____ trench feet x \$1.90 per trench foot =	\$	<u>-0-</u>
	_____ KVA of installed transformer capacity x \$4.00	\$	<u>-0-</u>
(c)	As defined in Paragraph 2 of the Agreement, additional nonrefundable contributions may be required where, in the Company's Judgment, practical difficulties exist. The contributions for these practical difficulties amount to	\$	<u>2,144.00</u>
(d)	Where the Developer requires winter construction (see Paragraph 4) an additional nonrefundable contribution is required in the amount of	\$	<u>-0-</u>
	TOTAL	\$	<u>15,217.00</u>

Gentlemen:

Re: Independence Hills No. 1

Enclosed is the original and two copies of the Additional Easements Agreement for the above described project. Please have the original and one copy executed and returned to us. We will have the agreement executed by Bell and Edison and return a fully executed copy to you. The third copy should be retained by you until you receive the fully executed copy from us.

In order to comply with the recording statutes of the State of Michigan, please have two separate witnesses. The notary can be one of the witnesses. Also, print or type the names of all parties signing the documents, including witnesses, and notary.

Prompt return of these instruments, fully completed, will assist in prompt scheduling of our work to be completed in your project. Please return all documents to: The Detroit Edison Company, Omer V. Racine, 3004 Telegraph Road, Birmingham, 48010.

Sincerely,

Omer V. Racine, Representative
