THE DETROIT EDISON COMPANY

2000 SECOND AVENUE DETROIT MICHIGAN 48226

December 29, 1964

Condomatic Company, Inc. 2700 Nine Mile Road Warren, Michigan

Gentlemen:

Pursuant to recent negotiations, Mr. Robert Boss of our Properties and Rights of Way Department, requested that you grant The Detroit Edison Company a right of way over a portion of your property located on the south side of Haple Road, and more particularly described as:

> The North 60 feet of part of the Northwest 1/4 of Section 35, Town 2 North, Range 11 East, described as:

Beginning at a point South 89°41' West 770.40 feet along the North line of Section 35, from the Northeast corner of said Section; thence South 0°10' East 628.28 feet; thence South 89°41' West 140.00 feet; thence North 0°10' West 628.68 feet; thence North 89°41' East to the point of beginning.

The location of the proposed easterly and westerly line was placed at approximately 52 feet south of the centerline of Maple Road in the expectation that Maple Road would be widened to 60 feet in the near future.

Your architect, Mr. Lawrence Snyder, raised the objection that if said portion of Maple Road would not be widened in the near future and that you were to erect a building with its setback line selected in relation to the present 33 foot width of Maple Road, The Detroit Edison Company's power line would be located in close proximity to said building.

Therefore, it is hereby agreed that if said portion of Maple Road is not widened to 60 feet and you do erect a building on said property in close proximity to said power line, The Detroit Edison Company shall relocate its power line at its own expense to a point approximately 32 feet south of the centerline of Maple Road, and shall release the unused portion of said right of way.

Very truly yours,

A. L. Kasameyer, Director Properties & Rights of Way Dept.

EWB: apm
