Revocation by Commission

cl

December 10th, 1925

The Honorable Board of Commissioners
City of Pontiac
Michigan

Attention: Mr. C. W. Ham, City Manager.

Gentlemen:-

Confirming my verbal request The Detroit Edison Company respectfully asks permission to lay a line of armoured conduit, in your City, from a point West of our Bloomfield Substation, or South Boulevard and Bloomfield Avenue, in a Westerly course crossing Orchard Lake Avenue to Pontiac Drive, as known. The purpose of this additional circuit is another feed line from our said Bloomfield Substation to the Village of Clarkston district. No so-called taps will be taken from this cable in the City of Pontiac.

We are submitting, herewith, a more or less indefinite blue print but showing a suggested route and approximately locations of the cable, which will carry 24,000 volts, and will be buried 3' below the surface with a 2" x 3" wooden plank laid on top. This suggested route would be quite desirable to us as we have carefully gone over the ground.

It is understood that if the City of Pontiac grants us this request, we shall comply with all its laws and ordinances and assume the cost of inspections by the City for such construction.

Yours truly,

Right of Way Agent.
